

## Price List

I understand that wedding planning is stressful which is why I've come up with these six packages to help you decide. All packages (apart from my Pure & Simple packages at the bottom of the list) have the following features:

- A pre-wedding consultation at your venue to ensure that I understand all your requirements.
- I visit all venues that your wedding will be using to familiarise myself if it's somewhere I've not shot before.
- Unobtrusive 'documentary style' photo coverage as well as time allotted to traditional family group shots and artistically directed (but natural feeling) shots of you as a couple.
- I will be with you for a minimum 8 hours – this is generally enough time to include the bride's final preparations right through to the first dance. (only applies to Silver, Gold, Platinum & Diamond)
- I always bring a 'shooting assistant' with me to every wedding. They will help me out (bag carrying, lens swapping etc) as well as taking shots from other angles throughout the day.
- All the photos on a USB stick, including black & white shots, with permission given for you to make unlimited prints for friends and family. For copyright reasons, any other uses must be cleared with me first.
- A post-wedding consultation to show the best photos from the day and to discuss your choice of album cover etc.
- Beautiful photographic heirloom albums, handmade in England or Italy.

The type of album you receive depends on the package you choose. The packages are as follows:
